AN OVERVIEW OF REVITALIZATION

Bishop Mitchell Corder

Defining Church Revitalization	Notes
Church Revitalization is a movement within the greater evangelical church which emphasizes the missional work of turning a plateaued or rapidly declining church and moving it back toward health , vitality , and growth .	
I. The Phases of Church Revitalization - Blueprint	
• Refocusing – For a church that is growing but needs to set new challenges and look for opportunities to expand their Gospel witness in their target area.	
• Revisioning – For a church that was once alive and vital but is on the verge of losing its focus and drive for the mission of Jesus.	
Renewal – For a church that needs to get back on track. It needs a spiritual jump start.	
• Reinvention – For a church that needs new tools and techniques to help it adapt to a changing community or to a general societal shift. New experiences must replace old experiences. New practices must replace old practices.	
• <u>Restoration</u> – For a church that needs a fresh understanding of the new future, it must meet needs in order to give it a restored place in community.	
• Resurrection – For a church that must face the challenge that it has waited too long to enter into revitalization. This church has been flatlined and hanging on by means of its legacy and the faithful few who are attending.	
Revitalization is a necessary and important aspect of the life of a church.	
Every church will need seasons of intentional revitalization if it is to maintain spiritual vitality, freshness, and missional effectiveness.	
The impact of the decision a church and its leadership make regarding revitalization will impact future generations.
